SUMMARY

Innovative Frontend Developer with a robust skill set in HTML, CSS, JavaScript, React.js, and Tailwind CSS. Adept at transforming complex designs into seamless, responsive web applications. Experienced in using Figma for wireframing to enhance user experience and streamline development. Passionate about delivering clean, efficient code and staying at the forefront of emerging web technologies. A proactive problem-solver committed to creating visually compelling and highly functional digital experiences.

Projects

Curd Operation

Developed a Contact Management App using Firebase for data storage, enabling users to perform CRUD (Create, Read, Update, Delete) operations seamlessly. The application efficiently handles data management tasks, ensuring smooth user interactions and reliable data persistence.

Dice Game

Created a single-player Dice Game where users compete against the system. The system generates a number, and the player must match it to avoid losing points. This game combines luck and strategy, offering an engaging experience with a penalty for mismatches.

Food Menu

Developed a website showcasing various dishes and meals for Breakfast, Lunch, and Dinner. Users can easily search for their desired dishes, making meal planning simple and convenient. The site offers a comprehensive menu, catering to a wide range of culinary preferences.

Portfolio

Designed and developed a portfolio website to showcase my qualifications, personal details, and projects. This platform provides a comprehensive overview of my skills and experiences, serving as a professional online presence to highlight my work and achievements.

EDUCATION

Bachelors of Technology

Sree Rama Engineering College Tirupati • Jawaharlal Nehru Technological University Anantapur (JNTUA) • 2022

Higher Secondary School

MGM Junior College Sri Kalahasti • Bord of Intermediate Education Andhra Pradesh • 2017
